NOTE.—Items i, iii and vi are required in accordance with popular ideas of what is required.

Items ii, iv and v would in the ordinary course have had to be carried out by the State and advantage is taken of the present occasion to regard them as works in memory of His Highness the late Maharaja.

Item vii is kept as low as possible and is free from all objection. The lands are waste with no tenancy rights of any kind. The grant is exceedingly moderate compared with what is usual in such cases.

Item viii. This is also in accordance with what is usual on such occasions. The amount is moderate and is in fact the same as what was sanctioned for the Chattram built in the name of Krishnaraja Wodayar III, during the British Administration.

Memo.

Lands for Sitarvas & Chamraj Agrahars -

There are 18 houses in Sitarvas & 30 houses in Chamraj - total 48 houses.

These houses have been built from Palace funds and the Main lands to be attached to them shd. come from the State in accordance with precedents in Mysore & Channarayana.

The value of lands assigned during the reign of Krishnaraja Wodegar III, has to be ascertained from Agrahar house amounted to 30 or 36 Pagodas, equivalent to Rs. 105 or 125 - similar value shd. now be given.

The grounds of policy I do not grant entire villages as occupied lands, but will grant only unoccupied waste lands as minor means. These are best granted out in C. & L. waste lands under the provision of the Branch on the right side of the channel from the River - to be called hereafter as the

Channel

will be one of the best in the State,
and under its Branch above
named there are 327 Acres waste
in the Gaudan halli Karat & 100
Acres waste in the Hampapur
Gomal. total 427 acres -
Out of this area, 240 acres will
~~be proposed to be~~ granted as
Agrahar lands to the 48
Agraharans at 5 acres each -
Assuming each acre to yield a
Gutta rent of 4 Kristwaraj Khands
or parts, each grant will be
worth Rs 100 per annum.

The Grants ~~will~~ be made out
& given away on the 16 Dec
the Varsha Bikram Day.

The 48 blocks of 5 acres each
should be formed, where
possible by clubbing together existing numbers
& where this not possible by means of
a new Survey.

On a rough estimate the work of
levelling, terracing &c - w^d cost
at Rs 60 per acre. This work sh^d
be undertaken by the Palace Committee
at once in conn^{ct} with the Dy^y and
and the E^g. Channel Dy^y -
